

# SteelWorx Organizer Assembly Instructions

## Tools needed for assembly:

Phillips Screwdriver  
Adjustable Wrench

**1.** Using 3 Machine Screws and Nuts, attach the Angle Support to the Base (see fig. 1). Make sure the hinges of the Support are facing upward (see fig. 2).

**2.** Using 4 Machine Screws and Nuts, attach the Page Holding Bracket(s) to the Angle Support (see fig. 3). For a 10-Pocket unit, use holes #3 and #4 on the Angle Support. For a 20-pocket unit, use holes #2 and #3, and #4 and #5. For a 30-Pocket unit, use holes #1 and #2, #3 and #4, and #5 and #6.

**3.** To install the Pockets, flex them slightly at the spine and insert the metal pins into the corresponding top and bottom holes of the Page Holding Bracket(s) (see fig. 4).

**HINT:** For ease of loading we recommend that you insert your display materials before installing the Pockets onto the Page Holding Bracket(s).

**4.** Adjust the viewing angle of your Organizer by inserting the back panel of the Angle Support into any of the slots on the base (see fig. 5).
